The resource is the person from and living in Africa; it is the community, the Church, the school, the song, the dance and the drum.

Dear ACSI Africa members and global Friends: Welcome to The Drum, a triannual ACSI Africa newsletter published March, July and November of each year. The July issue shares a few of many March, April and May highlights, testimonies and news about the work of ACSI on the continent.

**REGIONAL HIGHLIGHTS & TESTIMONIES**

**ACSI Southern Africa**

**South Africa**

- ACSI SA hosted one week training in Educational leadership through a local university, funded by the Skills Development Body of South Africa. ACSI SA have had 835 people attend these sessions, receiving nationally recognised Continuous Professional Development Points.

- Testimony from Ren Payne, Principal of El Shaddai Christian Academy situated in a small South African town, Port Alfred: Our school opened in January 2005, with 7 learners, the principal and two teachers. The school soon grew in numbers and the amount of learners could not be contained on the church’s premises. During 2014, our church raised finances to enable us to purchase 7.2 hectares of land. In 2015, the Roads Department procured some of this land to develop a new major road. The Chairman of our School Governing Body immediately invited the managing director of the roads construction company to visit our school. God gave us favour and the MD was so impressed by the atmosphere of our school that he promised to assist us in our development. As I type this article, I can hear the rumbling of earth moving equipment from my office as our top soil is being removed in preparation of levelling our property to create our sport fields.

  God has made a way where there seemed to be no way. He has provided where there was complete lack of resources. I am awestruck!
